### LOCAL JOTTINGS

Who asked for rain? We are sure getting it

Rev. S. A. Chauncey, the new pastor of Strathmore Methodist Church, conducted the services for the first time on Sunday. Mr. Chauncey is an eloquent and convincing speaker, and should prove popular with the congregation.

Dominion Day falls on Tuesday, July 1, and will be observed as a general holiday throughout Canada. For this week the usual Wednesday half-holiday will be suspended. Stores, etc., will therefore be closed all day Tuesday, and open Wednesday.

A rampaging drunk arrested on Tuesday by Constable Smith had to be handcuffed and literally dragged to the police station. He was fined \$3 and costs next day.

A Missionary Meeting was held in the Anglican Church on Wednesday evening, being addressed by The Ven. Archdeacon Times, Rev. W. G. James, and Mr. W. A. Geddes, the chair being taken by Rev. Canon Stocken.

A baseball game was to have been played between Strathmore and Gleichen at Gleichen on Wednesday, but owing to the rainfall was abandoned.

300 head of cattle were shipped from the stockyards here on Wednesday by John McDaniels, Carstairs, for F. Burns & Co. The cattle were all in prime condition, and are stated to be as fine a bunch of cattle as ever were shipped from Strathmore.

Miss Betty Thornley, a member of the editorial staff of the Toronto Star, who has been out in the West with the members of the Canada Women's Press Club, visited Strathmore Wednesday afternoon getting a view of the town and district, and also of the ready-made farm scheme, for her paper. She was shown over the Namaka Colony, and left by the local on Thursday forenoon.

I have three well-improved farms to be leased for a term of years. For particulars apply to F. T. McElhose, Strathmore. 19 Tu

Read the ads. to-day. There are some very interesting announcements which are worth reading, and will save you money.

The annual Masonic church parade will be held at the Anglican Church to-morrow evening, where the service will be conducted by Rev. Canon Hogbin, Calgary. The brethren will meet in the Lodge room at 6 p.m., and the service will commence at 7.30 p.m. All Masons residing in the district are requested to attend, and a large attendance is expected.

Miss Rose Goggins, sister of Mrs. Paul J. Harrison, formerly of Strathmore, was in town this week.

The date of the Congregational Outing of the Anglican Church, announced last week as July 2, has been altered to Tuesday next, July 1. It will meet at the Church on that day at 9 p.m.

The Calgary Deaconry of the Anglican Church met in Strathmore this week on Wednesday and Thursday, and transacted the usual business. The thanks of the Deaconry are extended to all who so kindly assisted in providing hospitality.

The U. F. A. Ladies' Meeting is being held this afternoon.

It is about time that steps were being taken in preparation for Strathmore Labor Day Sports. I have three well-improved farms to be leased for a term of years. For particulars apply to F. T. McElhose, Strathmore. 19 Tu

A report kindly submitted by Misses Selkirk and Martin, showing the Strathmore School promotions, will be published in next issue.

Mr. Geo. Jackson brought in last Saturday from his farm south of Cheadle, a sample of fall wheat 24 inches high and fully headed out. There is not much fall wheat grown in this district, but Mr. F. T. McElhose states that he has 100 acres in crop, which is doing very well.

Several new settlers arrived this week, including Mr. and Mrs. H. G. McNeese and family, from Midland, Texas, who have taken ready-made farm 88, Glenrose; Mr. H. Richards, Salt Lake City, on farm 87, Glenrose, which he will occupy in September; and Mr. C. H. Hadley, of Delta, Colorado, who has purchased 320 acres of raw land 8 miles north of Strathmore, on which, with his wife and seven children, he will locate in September.

Mr. C. H. Kindig, a Nebraska subscriber, writing last week, states: "It looks as though our Democratic Congress intends to give you Free Trade in our stuff. Beats reciprocity a mile."

Messrs J. W. White and W. H. May, partners in the firm of White & May, after spending part of last week in Strathmore, left on a visit to Edmonton and the northern part of the Province. Before leaving, Mr. White stated that he considered Strathmore the best town between Calgary and Medicine Hat.

Mr. Henry Sorensen brought into town on Tuesday a sample of spring wheat headed out, part of a 280-acre field.

Extensions are in progress at the Irrigation Headquarters. A new bunkhouse is being built, and a well sunk to a depth of about 300 feet.

A Cantata entitled "Captive Maid of Israel," will be given by the Presbyterian Church on Sunday evening, July 13. Fuller particulars will be given later.

As will be seen from our advertising columns, Mr. J. W. Eason will open up an optical and watch repair store in the Girvin Block on July 2, and hopes for the patronage of the public.

Though rain fell somewhat on Friday and curtailed the programme, Cheadle Sports were much enjoyed. Strathmore lost the ball game to Langdon by a score of 9-2, the winning seven runs being garnered in the last two innings.

Constable Smith has made a record in the present month of five cases against the health by-law, two drunks, and two wages cases.

Corporal Irvine, R.N.W.M.P., came into town Thursday and arrested Earl Rimmer on a charge of alleged horse-stealing, and took him to Gleichen for trial.

The furniture of the Maple Leaf Hotel was seized on Thursday by Sheriff A. Smith from Calgary, under a chattel mortgage held by Calgary Brewery.

## Baseball

## Acreage in Crop

A Baseball Match which no doubt will prove the most interesting game of the season will be played on the local diamond Friday evening July 10th between the "All Star" Association and the Regular team. The latter to consist of local players only. The All Star Association will be as follows: Pitcher Roy McElroy, Catcher Moore, Outfield and Infield to be picked from the following: Swan W. C. Brown, E. B. McElroy, J. H. McElroy, F. J. A. MacDonald and W. Knight. Game will be called at 8:30. An admission fee of .25 cents per head will be charged in order to help the club out financially. Everybody come and help the team out besides witnessing a fast game.

## Namaka Colony Notes

Where are all of our correspondents? No news has appeared in your valuable paper from our corner yet, a few items might be interesting to some of your readers. Mr. Editor.

Mr. and Mrs. Watson of No. 9 and Mr. and Mrs. W. C. Brown motored to Calgary a few days ago. Harry Bois even has returned to his home after spending some time with old acquaintances in this vicinity.

We are pleased to see Donald Thos. Crawford D. D. G. M. of the Masonic Lodge visiting Medicine Hat, Redcliff and Brooks, this week.

Messrs Rich and Knight have dissolved partnership. Mr. Rich has purchased farm No. 5, where he will reside in the future.

Mr. Graydon of No. 6 has purchased farm number 11, and Mr. Burton of No. 4 has purchased farm number 12. One more sale and the colony will all be settled.

A football team has been organized. Matches will be arranged for Friday at the Chasde Sports here with the Strathmore eleven. The local team are all good experienced players and should give a good showing against the town boys.

Quite a number from around here attended the Chasde Sports here on Friday of last week and spent an enjoyable time.

The Harwood Whiteheads' baseball team have been playing good lately, why not arrange for a game with Strathmore?

Crops are looking fine in this district. If present weather conditions prevail a bumper crop is assured.

Thos. Crawford D. D. G. M. of the Masonic Lodge visiting Medicine Hat, Redcliff and Brooks, this week.

## Alfalfa Competition

## DATE SET FOR JUDGING

The alfalfa competition promoted by the C. P. R. for the purpose of encouraging the growth of this very profitable legume throughout the irrigation block has aroused a great deal of interest, and many farmers throughout the irrigation block can boast of a five to ten acre patch of alfalfa, while some have put in from thirty to fifty acres with entirely successful results.

The propitious nature of the season so far has put the fields into first class shape, and Mr. Fairfield, the same judge who made the awards in last year's competition, will find it no easy task to determine which are the best crops. Mr. Fairfield, however, is an enthusiast on alfalfa, and probably knows more about it than any other person in Alberta, so that competitors will have entire confidence in his judgment, and will also be heartened by the advice he gives while inspecting the crops.

Mr. W. H. Fairfield, who is Superintendent of the Government Experimental Station for Southern Alberta, expects to spend the week of July 21 to July 26 on the irrigation block, and will be judging the different tracts in the competition.

He advises that the 1912 fields be cut as early as possible so that they will have a good crop on the next judging.

Mr. Tom Swan arrived back in town Thursday, after several months spent on the B. C. coast.

Mr. W. E. McCoy, the new manager of the King Edward, and Mrs. McCoy, arrived in town this week.

Report of Council Meeting Tuesday and other matters unavoidably held over.

Mr. A. Snider has sold his quarter-section south of town to a Taber man.

A bulletin of the Census and Statistics Office issued to-day gives preliminary estimates of the area sown to the principal grain crops and reports on their condition at the end of May according to the returns received from crop reporting correspondents throughout Canada. The reports show that the month of May proved cold and dry with frequent night frosts and that these conditions, whilst favourable to seeding, retarded the growth of the crops sown and caused them to be unusually backward.

The total area under wheat in Canada is provisionally estimated at 9,216,900 acres in 1912, an increase of 291,600 acres, barley occupies 1,422,400 acres, an increase of 10,000 acres and rye 126,900 acres, a decrease of 9,610 acres. For wheat, barley and oats taken together the increase represents 439,500 acres. The estimated acreage of alfalfa and clover is 7,735,000 acres compared with 7,735,000 acres last year.

## More Rain

Heavy rains have prevailed all over the district since the last issue, and the ground is thoroughly sodden, many low places being under water. There is now enough moisture in the soil to mature the crop, and a spell of warm dry weather would be appreciated.

Crops are doing well. Some are already headed out, and many fields will be headed out in a few days warm weather.

Following is the temperature and rainfall record for the week ending June 30 to June 30, INCLUSIVE.

	Max.	Min.	Precipitation
Friday	64.3	30.0	.02
Saturday	62.7	30.0	.02
Sunday	72.5	48.0	.02
Monday	69.0	40.0	.02
Tuesday	58.8	40.5	.06
Wednesday	49.0	19.0	.02
Thursday	54.1	44.5	.37

Readings taken at 8 a.m.

## Calgary Exhibition

Preparations for Calgary Exhibition are progressing rapidly according to the reports which some of our correspondents have made in that city.

There has been a very large increase in the number of entries in all departments. The average increase will be about 20 per cent. The special excursion train from the north and south, on July 1, will be a big feature. The railway companies and the exhibition committee are offering prizes for the best exhibits.

The local railway agent reports quite an inquiry regarding tickets from the town of Calgary. It looks as though there would be a large local contingent at the exhibition, the first week only, as the exhibit is in the whole six days.

## Crowfoot Notes

Mr. L. G. Fleenor, of Salem, Ind., is making an extended visit in this district with his daughter, Mrs. D. R. Garriott.

Mr. H. Heiting, of Fremont, Ill., was down from Calgary yesterday looking after his farming interests here.

Mr. Fred Schumann left Monday for a visit with his parents, Mr. and Mrs. W. Schumann, of Maple River, Minn. He intends to stay until harvest, and will bring a carload of stock and implements with him on his return.

Mrs. S. B. Hoskins, of Calgary, has been a visitor at the home of Mr. and Mrs. H. G. Scher for several weeks.

Edward Calton and Harry Boissevain left Tuesday for their home near Medicine Hat.

Miss Francis Harvey is expected home soon for a month's visit with her parents, Mr. and Mrs. R. L. Harvey. Miss Harvey has been attending school in Victoria, B.C., for the past two years.

First-class services were held at Crowfoot Sunday by Rev. Wilson of Gleichen, this being his first service after reaching his new appointment.

Mrs. R. Johnson and Mrs. W. R. Harvey were in Calgary Monday.

Miss Judith Schuler, of Tulsa, visited Crowfoot friends Monday and Tuesday.

Mrs. Robert West has been on the sick list for the past two weeks. Mrs. Will Tucker and children, of Strathmore, spent Monday afternoon with Mrs. Aaron Barnett.

Messrs Harwood Morrison and Jack McLean were entertained Sunday at the home of Mr. and Mrs. Robert West. Miss Mary Colton visited with friends in the Dutch Colony last week.

The heavy rains of the past three weeks have already materially benefited the crops in the district, and at present there looks to be prospects for a splendid crop this harvest.

## MILLIONS OF CASH COMING TO CANADA

The Canadian Pacific Railway is bringing in \$60,000,000 in Eight Months

The Monetary Times draws attention to the interesting fact that within the next eight months the Canadian Pacific Railway can bring no less than \$60,000,000 of new capital from abroad for use in this country. This sum is the portion of the amount realized on the company's recent stock issue, which will be available for transfer to Canada. It will be poured into the company's coffers in London for four instalments, which are due this month and in June, August and October. This means that this one railway may bring \$16,000,000 across the Atlantic every two months until the autumn.

In Western Accounts On reaching Canada these funds will figure in the company's accounts at Montreal, Winnipeg, Calgary and Vancouver, and from these temporary resting places be scattered far and wide over the country. "Much of the money will go in the ordinary course to settle the claims of the contractors who are engaged on the company's works." In this way these contractors' obligations to their own banks will be lessened, the money will be widely distributed in the settlement of commercial accounts, and the tendency will be to ease the financial situation at least to a moderate extent.

Perhaps never before has a single stock market transaction rendered such a huge sum of money available for this country, and it is remarkable that the arrival of such a large amount in a period of stringency might work harm by causing merchants and speculators to abandon their present cautious and conservative attitude which is the salvation of the situation. What is required for a complete cure is a continuation for some time yet of the present abatement from speculation and from excessive borrowing. Bankers are advising men to go slowly and carefully, to keep their lines of credit well within control, and to postpone unnecessary extensions of plant or of business activity.

No Depression Commercial payments may be slow for the time being, and real estate values may be weaker in the West, but our factories are overladen with orders and no signs of depression are discerned. If speculation is checked and if business men and manufacturers are postponing new extensions it is because of a world-wide condition of a temporary shortage of money to finance an unprecedented universal prosperity together with a costly war and rapidly growing European armaments. Once Canadian corporations and municipalities can again draw money freely from London as the monetary conditions will become easy again here and elsewhere. And the money must be forthcoming to house and provide for the immigrants who are arriving there in far larger numbers than ever. Tens of thousands of them are going on the land and the larger proportion are farmers.

# FRENCH HATS FOR AMERICAN HEADS

*Paradise Roses on a Boat Shape*

*Migarettes Trim a Plateau Hat*

*Revised Espe Bonnet*

*A Crownless Hat with a Lace Bandeau*

*A Rose Wreath on a Blue Bowler*

*Mercury in Brown*

*The New French Sailor*

THE latest expressions of milliners' art command praise and interested greeting, for they are new, beautiful and becoming and, moreover, can be duplicated by any one clever enough to trim her own hat.

First of all, the summer hat is small. It has been inspired by all countries and epochs, and in its present-day phase offers a wide field from which every wearer ought to choose an appropriate model.

From China comes the small hat with a lace ruffle covering the bandeau that raises the shape at one side. Soft straw in Chinese blue is covered with yellow crepe—a feature that is very noticeable—and velvet ribbon is disposed in flat bands hanging at the back. Blue flowers trim the edge.

The all-white French sailor has a folded band of satin with a flat bow at one side. White coq feathers are attached under the brim and curl up over the edge. On the other side the feathers curl down and back. Any color is good in this model.

Mercury is here with us in a popularity that is well founded. In brown straw with a golden brown velvet crown it is shown. The Mercury wisp, in burnt-orange and brown, are pointed at the back. The close-fitting hat is excellent for traveling or motor-ing.

The double brim has a representation in the march of millinery styles. The crown and solid brim are of straw covered with blue crepe. The lower brim is of blue straw and is very small. A nockle bow holds light-blue agorettes that extend out at the back.

The rose hat has a round crown and a drooping brim. A broad band of royal-blue velvet encircles the crown and American beauties are wreathed around it, weighting it down in a becoming curve at the back. Blue silk forms a facing under the brim.

New touches are shown on the boat-shaped turban. This is trimmed with a band of blue ribbon, which contrasts effectively with the black straw. Pink roses are clustered at the back. From each rose a paradise frond projects in a novel way.

Georgette sends a close little straw hat that shows a mass of roses at the back, covering the crown and brim. These are in

shades of pink. Any cluster of flowers could be arranged like this on a small bonnet shape.

Variety is the keynote of summer millinery. It promises the right styles for all weavers, and it is the duty of every woman to select modish millinery beauty and wish it to crown her costume.

Since a change of hat is possible with one gown, with a resultant new effect that is inexpensive, attention should be centered on the millinery of the moment. No woman clever at using her eyes and her needle should be lacking in a modish variety with three or four expressions of modish beauty in headgear.
